Superintendent's Goals 2017-2018

Goal #1: Improve communications through enhanced social media including the use of SAPPHIRE to increase the collaboration between the schools, families, and the community.

Assessment of this goal:
1. Increase Facebook likes and website hits
2. Disseminating parent newsletters
3. Reflection and monitoring
4. Surveys communicated through social media
5. SAPPHIRE communication logs

Goal #2: Use Student assessment data to support instructional decision-making and facilitate differentiated instruction at all grade levels to maximize student achievement and active engagement, including promulgating the Trojan Enhanced Learning Initiative to create personalized transformational learning experiences.

Assessment of this goal:
1. Using assessment data
2. Work of data teams
3. Shifting of MTSS groups
4. Use of intervention in the high school
5. Results of 1:1 implementation
6. Guidance monitoring
7. Reflection and monitoring

Goal #3: Through the 1:1 iPad initiative at the high school, develop the Trojan Enhanced Learning Initiative to improve learning.

Assessment of this goal:
1. Implement instructional strategies through in-house facilitators
2. Develop a management strategy for electronic instructional materials
3. Recruit and develop the talents of student technicians
4. Endeavor to use technology to create transformational learning experiences
5. Monitoring

Goal #4: Encourage empathy among all members of the school community through such initiatives as character education, in-service training, and community outreach.

Assessment of this goal:
1. Refinement of character education
2. Discipline data
3. Standardized test scores
4. End of the year surveys
5. Monitoring

Goal #5: The Superintendent shall consistently demonstrate respectful, professional communications with all School Board members in public meetings, executive sessions, written communications, and interactions at district events.
