Dear Parents and Guardians:

Student Services provides expertise and leadership in the development, coordination, and delivery of a diverse array of quality educational services and programs.

As part of the Child Find process, Student Services provides access to a licensed school psychologist. This service is available to all district parents and guardians, including children covered under the McKinney-Vento Act.

Many of Student Services activities focus on providing special education services for preschool and school age children with disabilities, ages three through 21. These children's needs are met through service options including, but not limited to, Early Intervention Preschool Program, district and IU-based special education classrooms, and itinerant special education services. The team also provides assessment and direct services in multiple areas, such as speech and language, including assistive technology and augmentative communication, occupational and physical therapy, audiology, blind and visual impairment, deaf and hard of hearing, psychological and psychiatric services, as well as secondary transition. Educational consultants are available to provide consultative support in a variety of areas including the special education process, disability specific content, and staff development.

If you have questions and would like more information, please contact the office of Student Services at 717-362-6478. Thank you for your interest in your child's education.

Sincerely,

A handwritten signature in blue ink that reads "Evan P. Williams". The signature is fluid and cursive, with a long horizontal flourish at the end.

Evan P. Williams, Superintendent
