Notice of Special Education Services and Programs Child Find

According to state and federal special education regulations, annual public notice to parents of children who reside within a school district is required regarding child find responsibilities. School districts (SDs), intermediate units (IUs) and charter schools (CSs) are required to conduct child find activities for children who may be eligible for services via Section 504 of the Rehabilitation Act of 1973. For additional information related to Section 504/Chapter 15 services, parents may refer to Section 504, Chapter 15, and the Basic Education Circular entitled Implementation of Chapter 15. Also, school districts are required to conduct child find activities for children who may be eligible for gifted services via 22 Pa Code Chapter 16. For additional information regarding gifted services, parents may refer to 22 PA Code Chapter 16. If a student is both gifted and eligible for Special Education, the procedures in IDEA and Chapter 14 shall take precedence.

This notice shall inform parents throughout the school district, intermediate unit, and charter school of the child identification activities and of the procedures followed to ensure confidentiality of information pertaining to students with disabilities or eligible young children. In addition to this public notice, each school district, intermediate unit, and charter school shall publish written information in the handbook and on the web site. Children age three through twenty-one can be eligible for special education programs and services. If parents believe that their child may be eligible for special education, the parent should contact the staff member identified for their school district of residence, listed at the end of this public notice.

Children age three through the age of admission to first grade are also eligible if they have developmental delays and, as a result, need Special Education and related services. Developmental delay is defined as a child who is less than the age of beginners and at least 3 years of age and is considered to have a developmental delay when one of the following exists: (i) The child's score, on a developmental assessment device, on an assessment instrument which yields a score in months, indicates that the child is delayed by 25% of the child's chronological age in one or more developmental areas. (ii) The child is delayed in one or more of the developmental areas, as documented by test performance of 1.5 standard deviations below the mean on standardized tests. Developmental areas include cognitive, communicative, physical, social/emotional and self-help. For additional information you may contact Eric Bostick, Supervisor of Preschool/Early Intervention, Capital Area Intermediate Unit #15, at ebostick@caiu.org, or at 717-732-8400, ext. 8619.

Evaluation Process

Each school district, intermediate unit, and charter school has a procedure in place by which parents can request an evaluation. For information about procedures applicable to your child, contact the school that your child attends. Telephone numbers and addresses can be found at the end of this notice. Parents of preschool age children, age three through five, may request an evaluation in writing by addressing a letter to Eric Bostick, Supervisor of Preschool/Early Intervention, Capital Area Intermediate Unit #15.

Consent

School entities cannot proceed with an evaluation, or with the initial provision of special education and related services, without the written consent of the parents. For additional information related to consent, please refer to the Procedural Safeguards Notice which can be found at the PaTTAN website, www.Pattan.net. Once written parental consent is obtained, the district will proceed with the evaluation process. If the parent disagrees with the evaluation results, the parent can request an independent education evaluation at public expense.

Program Development

Once the evaluation process is completed, a team of qualified professionals and parents determine whether the child is eligible. If the child is eligible, the Individualized Education Program team meets, develops the program, and determines the educational placement. Once the IEP team develops the program and determines the educational placement, school district staff, intermediate unit staff, and/or charter school staff will issue a Notice of Recommended Educational Placement/Prior Written Notice (NOREP/PWN). Your written consent is required before initial services can be provided. The parent has the right to revoke consent after initial placement.

Confidentiality of Information

The school districts, intermediate units and charter schools maintain records concerning all children enrolled in the school, including students with disabilities. All records are maintained in the strictest confidentiality. Your consent, or consent of an eligible child who has reached the age of majority under state law, must be obtained before personally identifiable information is released, except as permitted under the Family Education Rights and Privacy Act (FERPA). The age of majority in Pennsylvania is age 21. Each participating agency must protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages. One official at each participating agency must assume responsibility for ensuring the confidentiality of any personally identifiable information. Each participating agency must maintain, for public inspection, a current listing of the names and positions of those employees within the agency who have access to personally identifiable information.

In accordance with 34 CFR § 300.624, please be advised of the following retention/destruction schedule for the Pennsylvania Alternate System of Assessment (PASA), Pennsylvania System of School Assessment (PSSA), and Keystone Exam related materials:

- PSSA, Keystone Exam, and PASA test booklets will be destroyed one year after student reports are delivered for the administration associated with the test booklets.
- PSSA and Keystone Exam answer booklets and PASA media recordings will be destroyed three years after completion of the assessment.

For additional information related to student records, parents can refer to the Family Education Rights and Privacy Act (FERPA).

This notice is only a summary of the Special Education services, evaluation and screening activities, and rights and protections pertaining to children with disabilities, children thought to be disabled, and their parents. **For more information or to request evaluation or screening of a public or private school child, contact the responsible school entity listed below. For preschool age children, information may be obtained and screenings and evaluations may be requested by contacting the Intermediate Unit.**

The school entity or charter school will not discriminate in employment, educational programs, or activities based on race, color, national origin, age, sex, handicap, creed, marital status or because a person is a disabled veteran or a veteran of the Vietnam era. No preschool, elementary or secondary school pupil enrolled in a school district, intermediate unit, or charter school program shall be denied equal opportunity to participate in age and program appropriate instruction or activities due to race, color, handicap, creed, national origin, marital status or financial hardship.

NOTICE OF IMPORTANT RIGHTS

Maintenance, Access to, and Amendment and Disclosure of Student Information and Education Records

The Family Education Rights and Privacy Act (FERPA) affords parent and students over 18 years of age (eligible students) certain rights with respect to the student's education records. These rights are:

1. The right to review the student's education records within 45 days of the day the District receives a request for access.

A parent or eligible student may submit to the building principal a written request to review education records they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be reviewed.

2. The right to request the amendment of a student's education record that the parent or eligible student believes is inaccurate.

A parent or eligible student may ask the District to amend an education record believed to be inaccurate. Any request should be submitted to the building principal, and identify the record sought to be changed, and specify why it is inaccurate. If the District declines to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One example is FERPA authorizes the District to disclose an education record without consent to a school official with a legitimate educational interest. A "school official with a legitimate educational interest" is any employee or consultant of the District, an intermediate unit, a career and technology school, or any other facility the District uses or proposes to use to provide services to the student --

(a) *who is or will be* responsible for providing or supervising the provision of education, education-related services, or extra-curricular activities or experiences to or for the student; and

(b) *when* information concerning the student is relevant to the student's education, education-related services, or extracurricular activities or experiences, or is necessary to protect the health, safety, or welfare of the student or others.

The phrase "school official with a legitimate education interest" includes clerical staff of the agencies enumerated above who are responsible for the maintenance and security of education records, and also attorneys, consultants, and school board members when school board action concerning the student is required by law or when the student is the subject of present or potential litigation or legal dispute.

Additionally, the School District may disclose education records without consent to officials of another school district in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education.

A parent or an eligible student may file a complaint concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

5. The right to refuse the designation of any or all the categories of directory information.

The District is permitted by law to disclose directory information without the written consent of the parent or eligible student. The parent or eligible student has the right to refuse to permit the disclosures of any or all directory information if a written refusal is forwarded to the building principal no later than September 15th of the current school year.

Directory information means information contained in an education record of a student which would not generally be considered harmful or an invasion of privacy if disclosed. *Directory information* includes, but is not limited to a student's name, address, telephone number, e-mail address, photos, videos, date and place of birth, names of parent and siblings, dates of attendance, whether the student graduated and the date of graduation, awards received, participation in extracurricular activities, weight and height of interscholastic athletic team members, schools attended within the District, and contact information for of a student's parents/guardians.

The complete District policy on student records and other policies are available for review at the District office and in accordance with the District's Public Records Policy.

You may contact the District's Superintendent at Upper Dauphin Area School District, 5668 State Route 209, Lykens, PA 17048 or (717) 362-8134, if you have any questions regarding the policy on student records.

Title VII – Harassment/Bullying

Bullying is defined as a single significant act or pattern of physical and/or verbal intimidation perpetrated against another student that interferes with that student's rights in the school environment. Bullying may rise to the level of Harassment, a crime under section 2709, Title 18, Crimes and Offenses. Bullying includes, but is not limited to, physical intimidation or assault; extortion; oral or written threats; malicious teasing, putdowns, social isolations or name calling; threatening looks, gestures, or actions; cruel rumors; false accusations; or an intentional electronic, written, verbal or physical act or series of acts directed at another student or students which occurs in a school setting and/or outside a school setting, that is severe, persistent or pervasive and has the purpose and/or effect of doing any of the following:

1. Substantially interfering with a student's education.
2. Creating a threatening environment.
3. Substantially disrupting the orderly operation of the school.

Bullying includes cyber bullying. School setting means in the school, on school grounds, in school vehicles, at a designated bus stop or at any activity sponsored, supervised or sanctioned by the school.

All forms of bullying by district students are prohibited. Students who have been bullied must promptly report such incidents to the building principal or designee. All employees must take immediate and appropriate steps to intervene whenever bullying is observed. The employee shall promptly report the bullying to the building principal or appropriate supervisor. In addition, students, parents/guardians, and volunteers who become aware of bullying must report it to the building principal or designee for investigation.

Complaints of bullying shall be investigated promptly, and disciplinary and corrective action shall be taken when allegations are verified. Confidentiality of all parties shall be maintained, consistent with the district's legal and investigative obligations. No reprisals or retaliation shall occur as a result of good faith reports of bullying.

Documented reports of bullying will be assigned appropriate disciplinary consequences and may include referral to the Pennsylvania State Police.

The Upper Dauphin Area School District is an equal opportunity educational institution and will not discriminate on the basis of race, color, religion, national origin, sex or handicap in its activities, programs, or employment practices as required by Title VI, Title IX and Section 504 and the American with Disabilities Act. For information regarding civil rights or grievance procedures and services, activities and facilities that are accessible to and usable by handicapped persons, contact Mrs. Amie Savidge, Director, Business & Operations Services, 5668 State Route 209, Lykens, PA 17048. Telephone: (717) 362-6547.
